

Let's make...

Paper Plate Masks!

Materials Needed

- Paper Plates
- Popsicle sticks
- Glue
- Crayons
- Scissors
- Elastic string (optional)
- Paper clips (optional)

How to Make It

1. Take paper plates and cut out spaces for eyes and nose.
2. Decorate the plate any way you like.
3. Once the plate is decorated, you can tie elastic string to paper clips and punch the paper clips through the sides of the plate to hold the mask to the face. Or just glue the plate to a Popsicle stick and hold it in front of your face.
